01

Company overview

Kerada JC Ltd is a Kenyan consultancy that helps governments, development partners and businesses turn evidence into better policy, better investments and better infrastructure. Registered and operating from Eldoret since 2021, it works across two complementary practice areas — research, technical and policy advisory, and infrastructure and civil engineering — under one evidence-led approach.

Vision

To be a trusted enterprise delivering innovative, evidence-informed solutions for stronger infrastructure, healthier communities, sustainable food systems and resilient livelihoods.

Mission

To deliver innovative, evidence-informed solutions in infrastructure, nutrition, public health and sustainable food systems that improve livelihoods and advance sustainable development.

Registered office

Sagatia Business Centre, P.O. Box 10402-30100, Eldoret, Kenya

Assignments on record

11 across 2 practice areas, 2021–2026
